BOY DIES OF RABIES

Bite of Dog Two and a Half Years Ago Proves Fatal.

[Special to The Times-Dispatch.]
FREDERICKSBURG, VA., January 18.—Frederick Folger Nide, aged eight years, son of Mr. and Mrs. E. C. Nide, of this city, died yesterday as the result of a bite of a dog two and a half years ago. Last Tuesday the boy was taken sick, and Dr. P. C. Pratt, the family physician, was summoned. As soon as he saw the symptoms he called in two other physicians, Dr. A. C. Doggett and Dr. H. M. Delamette, and the three decided that rabies was developing. The physicians saw the child could not survive long, and the family was notified. His sufferings were relieved by opiates. He was bitten two and a half years ago by a bulldog. The dog was shot, the child's wounds healed and the incident was lost sight of until the child was taken sick. The funeral took place to-day from the home, services being conducted by Rev. R. A. Williams, D. D., of the Baptist Church. Interment was made in the family burying ground in the City Cemetery. The child is survived by his parents, one brother and four sisters.

Lime-Loss in Tuberculosis

In the Journal of the American Medical Association (January 17, 1914) was the following:

"It has been many times stated that in tuberculosis or in the pre-tuberculous stage an increased amount of calcium (lime) is lost both in the urine and feces. In fact, the demonstration has been thought to be a forerunner of the development of tuberculosis. . . . Forced feeding of tuberculosis patients and the enormous amount of eggs and milk once given such patients are not now considered advisable by a large number of physicians who are specializing in the treatment of tuberculosis. . . .

If tuberculosis is due to a loss of lime from the system, the success of Eckman's Alternative in one treatment of this disease may be due, in part, to the fact that it contains a lime salt combined with other valuable ingredients as to be easily assimilated. Always we have urged users of Eckman's Alternative to attend strictly to matters of food.

In addition to rest and proper diet, some effective remedial agent seems to be needed, and in numerous cases of apparent recovery from tuberculosis and kindred throat and bronchial affections Eckman's Alternative has supplied this need. It does not contain opiates, narcotics or habit-forming drugs, so it is safe to try. Your druggist has it or will order it, or you can get it from us direct. Eckman Laboratory, Philadelphia. RECOMMITTED TO JAIL IN DEFAULT OF BOND

George D. Salisbury Is Held to Answer Charge of Using Mail to Defraud.

[Special to The Times-Dispatch.]
BRISTOL, VA., January 18.—George D. Salisbury, the Easton, Md., promoter, arrested here on a charge of using the United States mails to defraud, to-day was held to the Federal Court in the sum of \$1,000, as the result of a hearing before Commissioner John J. Stuart. In default of bond, he was recommitted to prison. The evidence in one letter exhibited purported to show that Salisbury had promised E. D. Robinson, a Kentuckian, from whom he secured \$300, the secret word that would entitle him to a big prize in a drawing. Salisbury played his own case, closing with a touching picture of the sorrow his imprisonment would be to his wife and little boy at Easton, Md., who, he said, were dependent upon him for support. He probably will be required to appear in the Federal Court in Maryland for trial.

The mule became frightened while crossing the bridge, which is said to have had no side railing.

Bill of Senator Gilliam Would Take Minor and Local Matters From Its Jurisdiction.

WOMEN'S MEASURE DEFEATED

House Votes Down Bill Repealing Statute Requiring That They Be Subjected to Examination in Certain Real Estate Transactions.

[Special to The Times-Dispatch.]

RALEIGH, N. C., January 18.—Senator Gilliam introduced in the Senate to-day a bill to amend the State Constitution so that the General Assembly may be relieved of private, local and other classes of legislation. The bill also provides for emergency judges for Superior Court service. Classes of bills mentioned are local, private and special acts, such as appointing justices of the peace, health regulations, road and bridge matters, game laws, non-magistrate stream regulations, and pay of jurors. The House voted down, 33 to 50, the bill by Long, of Halifax, to repeal the statute requiring that women be subjected to examination as to their fraud and uncoerced signing of deeds and instruments other than waivers of right to homestead. The vote was preceded by a stirring debate in which Representative R. L. Doughton, in advocating the bill, said he stood at all times for women being on a thoroughly equal footing with men as their peers in property right and every other respect, "except," he declared, "it was not to be understood that I am unalterably opposed to the so-called 'woman's suffrage' and other such isms and cisms which are abroad in the land."

The House passed the bill by Allen, of Wayne, requiring that rules of contempt issued by judges shall be returnable to a judge other than the one issuing the same, the amendment being made that this do not apply to pending cases such as the famous Judge Peebles contempt cases in Wayne County. Judiciary Committee No. 1, of the Senate, this afternoon considered for a little while the Ward bill to repeal the long and short haul clause of the Justice Act, and substitute the revised provision allowing competitive freight traffic as in force prior to the application of the Justice Act. Monday afternoon was agreed upon as the time for a public hearing. Senator Ward told the committee it is a known fact that the effect of the clause known as the repealed had been practically to bankrupt the short lines in the State.

A SAFE WAY TO STOP INDIGESTION

Without Fear of Weakening the Stomach Works Fine in Any Case and Brings Relief in Ten Minutes.

The greatest folly of to-day is committed by people with weak dyspeptic stomachs who take artificial digesters to cure indigestion. Artificial digesters—pepsin pills, etc.—simply encourage a lazy or tired stomach to shirk its work by doing most of its work for it. This is fine for a time, but chronic dyspeptic knows, artificial digesters soon lose their efficiency. And once one did the trick three or four are now required, and the poor old stomach itself is worse off than ever.

Your stomach must be strong enough to expand and contract with a sort of churning movement so as to mix its digestive juices with your food. If your stomach isn't strong enough to properly churn your food, you will keep right on having indigestion after every meal until you make it strong.

There is one Stomach remedy that every dyspeptic can depend on as surely as that the sun will rise to-morrow, and that is the famous old MI-O-GA Stomach Tablets. Most stomach remedies let the stomach rest and digest the food themselves. MI-O-GA won't digest anything but it will strengthen and stimulate the stomach and make it do its own digesting. It stops stomach pains, ten minutes and does still better by making the baby, inflamed and sensitive stomach walls grow strong and elastic and able to do their own churning. MI-O-GA Tablets never lose their effect, and unlike more artificial digesters, they need not be used forever. A few weeks use is generally sufficient to put any stomach in good shape and Tragle Drug Co. and many other leading druggists hereabouts sell it with that understanding, agreeing to refund money to any one who does not get complete relief.

INSTANTLY KILLED IN BUILDING COLLAPSE

Joseph Beck Meets Death and Sixteen Others are Injured When Phoebeus Hotel Falls.

[Special to The Times-Dispatch.]
HAMPTON, VA., January 18.—Joseph Beck was instantly killed, William Middlebrook received dangerous injuries and fifteen other workmen narrowly escaped death this afternoon in Phoebeus when the Atlantic Garden Hotel, a three-story frame building, collapsed and crashed to splinters. The men were at work on the first floor of the big building tearing it down, and it is believed that the rain of the past few days caused the rafters to give way. Middlebrook was dug from the debris two hours after the crash came, but when the workmen got to Beck, he was dead. He had a broken neck. Beck was thirty-nine years old and a carpenter.

INJURED BY JUMPING FROM BURNING BUILDING

[Special to The Times-Dispatch.]

BELONA, VA., January 18.—When the residence and store of J. T. Crump, at Powhatan Courthouse, was totally destroyed by fire, members of the family saved their own lives by escaping through the second-story windows. One of the children went back into the burning building, and the father became alarmed and returned to save the child, who in the meantime was in danger. Mr. Crump jumped from the upper window and was badly injured. He was taken to a hospital in Richmond.
